WEEKLY WAR BRIEFS

Boys' and Girls' clubs in northern and western states pledged for war service in gardening, canning, poultry raising and other emergency enterprises have more than 800,000 members.

The winter of 1916-17 was the most disastrous the range stockmen of the West have ever known. The lamb crop for the entire west was 15 to 20 per cent below the average, and the calf crop was considerably below normal.

A fireproof solution for treating airplane fabrics is a thing which may be realized in the near future, experiments in a private plant having already developed a comparatively successful solution.

Government barges have been placed on the upper Mississippi, and through government assistance a new fleet is to be built for service. Sugar is being moved by barge from Louisiana plantations to New Orleans.

The manufacture and consumption of pastry is regarded as a luxury in France and has been entirely suppressed except on Sundays and holidays.

Cable rates have been reduced between North and South America.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

HEALTH AT CAMP

SEVIER EXCELLENT

The official bulletin of Monday, January 7th, gives some interesting information on health conditions at the various army cantonments in this country. The figures are based on the reports of surgeon-general Gorgas.

The Thirtieth Division is not mentioned in the summary, since health conditions at Camp Sevier are now far above the average. Interesting figures regarding the number of new cases of such diseases are given, however.

During the week ended Dec. 28 there were reported 12 new cases of pneumonia, one of malaria, 10 of measles, one of meningitis, and 314 of other diseases, a total of 340, an average of 12.5 per thousand. The average for all national guard camps for the same week was 23.9.

Eight men died during the week, seven of pneumonia, one of an injury.

The noneffective rate (total sick and injured on that date) for Dec. 21 was 48.7 per thousand for all the national guard camps. No separate figures on the noneffective rate are given for Camp Sevier, but it is known that it is far below this figure.

TOTAL OF \$4,000,000,000

WAR CREDITS GRANTED

War credits extended to other governments since the United States entered the war totaled \$4,236,400,000. Of this Great Britain received \$2,045,000,000; France, \$1,285,000,000; Italy, \$500,000,000; Russia, \$325,000,000; Belgium, \$77,400,000; Serbia, \$4,000,000.

PERHAPS.

(Suggested by the weather.)

Was there ever really a day in June When the happy birds sang a merry tune

Did I ever walk mid the orchard trees And listen to the hum of the busy bees?

Was there once a time when I sat by the brook, With my dinner pail and my fishing hook,

Lazily waiting for the fish to bite, Going home slowly in the dim twilight?

Is there such a thing as a scorching sun, With mercury up to a hundred-one?

Did I, fan in hand, ever seek the shade Or the swimmin' pool where the children play'd?

Was there ever a time when the ice-man's call, Was the most welcome cry to be heard of all?

Did I give him the last dime I had in store, And ask his credit for a few pounds more?

Oh! once on a time did the wild flowers bloom, And fill the air with their dainty perfume?

Did the warm south winds gentle breezes blow, Once in the days of long ago?

Am I dreaming, or without any doubt, Can these things be true I am telling about?

Perhaps—but look at the thermometer, please, Then out the window at the snow-laden trees.

Flies, gnats and mosquitoes may keep up strife, And make me fight hard for my very life.

Nuisance, of course, and yet I vow I'd rather have them than what we've got now.

Talk about your beautiful snow all you like, 'Twould be joy to me if I could hike, To the balmy south where the orange trees grow,

Away with your talk of the beautiful snow.

HOG RALLY—HOG SALE.

Weather conditions were such last Friday that it was impossible to have the Hog Rally. The same conditions may exist Saturday, January 19th. If the weather is favorable, the Hog Rally will be held in the Court House Saturday at 1 p. m. Farmers, merchants, bankers, teachers, preachers, lawyers, in fact everybody who is interested in the production of hogs and the winning of the war, are urged to be present and lend their support to the meeting.

On Saturday, January 26th, every farmer who has a sow to sell, it matters not the color or size, registered or not, is asked to take them to Paris Cottage Grove, Henry, Puryear or Whitlock, in crates or in wagons and offer them for sale. Farmers are warned under the penalty of the law not to take any hogs in for sale from cholera infected farms. The farmers who wish to buy are asked to go to these places with their wagons and buy them. The banks will lend money at 6 per cent to any worthy farmer who wishes to buy a sow.

D. M. CLEMENTS, Emergency Demonstration Agent.

Whenever You Need a General Tonic Take Grove's.

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 60 cents.

ALL ALLIEN ENEMIES IN U. S. MUST REGISTER

German Males Of 14 Years And Over Must Present Themselves.

Among the regulations for the registration of German alien enemies in the United States during the first week of February, are the following:

All German males of the age of 14 years and upward are required to register. Notice of time and place of registration will be given by publication in the newspapers.

The affidavit of each registrant must be accompanied by four unmounted photographs, signed across the face so as not to obscure the features, and the finger-prints of each registrant shall be taken.

Between 10 and 15 days after registration each alien enemy must again appear before his registration officer and obtain a registration card, which will bear his name and left thumb print. This card must be carried by the registrant for future identification.

An alien enemy who changes his place of residence to another place within the same registration district must at once report the change to the registration officer. No alien enemy shall move out of the district without a permit. Application for a permit must be made upon a form furnished by the Department of Justice, giving full particulars as to date, reason for change, and intended place of residence.

County Court at Last Tern Makes Appropriations

At the last quarterly session of the County Court of Henry County, held here Monday, January 7, the following appropriations were made:

County Officers

T. M. Hagler, boarding prisoners...\$562.50

W. I. Dale, clerk, quar. acct... 71.52

Court House

Frederick Disinfectant Co., mdse... 61.49

Peoples' Coal & Ice Co., coal 128.28

Ezell, Williams & Dumas, mdse... 17.75

S. J. Veltman, plumbing... 27.00

Hafford Nash, kindling... 27.50

FOR SALE AT A BARGAIN.

1 Peerless piano, dark oak; 30 pieces music in perfect condition, like new—for \$400 if taken at once. Less than half price of same piano new today. Cash or terms. Call or write this office.

Call 500 for taxicabs.

LOYALTY

Planting big food crops is the greatest thing that these men can do for their flag. If they are not willing to do it, then I have no hesitation in saying they are disloyal. There are only two sides to this question now: a man is either for the flag or he is against it. If he is for it, he is willing to do anything in his power for his country. If he isn't willing to do anything in his power he might just as well be frank about it and come openly on the side of Germany.

If the supply merchant is patriotic he will urge the farmer to plant food-stuff, even though he himself suffers a financial loss. It is any great thing that we are asking these men to do when we are asking our boys to enlist in the army and navy, possibly to be shot up for their flag?

Every home maker should secure the land to plant a garden sufficient to raise all the fresh vegetables needed by the family during the growing season and a surplus to can, dry and preserve for winter and spring needs. In doing this they will be serving their country equally with the soldier who goes to the trenches.—Carl Vrooman, assistant secretary, U. S. Dept. of Agriculture.

CHEVROLET AUTOMOBILES

Account railroad situation, labor, etc., cars will be hard to get this spring. **YOU DON'T WANT TO BE DISAPPOINTED.** Give us your order now, and we will have car ready for spring delivery. Cars bought now will be stored and batteries kept up **FREE** until time of delivery in Spring.

W. N. PORTER AUTOMOBILE CO.

FERTILIZER

Will help you solve the shortage in labor and economize the expenses of making a crop. Plant fewer acres, fertilize and cultivate better. It is the profitable way. Your profits will be more next fall and your labor expenses less. Get in the big drive for a record crop. Mt. Pleasant fertilizer is the farmers friend. Give your orders to—

CLAUDE BUSHART

Phone 840-4 Rings.

Agent for:

PARIS, ROUTON, VANDYCK and HENRY.

Owl Garage

Henry Co. Automobile Company

How many pounds to a ton—2000 or 1500?

HOW many pounds of real roughage are you getting to a ton? If you are buying old style hulls you are getting about 1500 pounds because they are about one-fourth lint which has no food value.

If you are buying

BUCKEYE
COTTONSEED
HULLS
LINTLESS

you are getting 2000 full pounds because they are free from lint and are practically 100 percent roughage. Try them and see how much farther they go.

Other Advantages

Cost much less per ton than old style hulls. Allow better assimilation of other food.

No trash or dust. Sacked—easy to handle. They mix well with other forage.

Mr. W. C. Owens, Charlotte, N. C.,

feeds thirty cows. He considers Buckeye Hulls the cheapest feed and gets the best results.

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.
